Praveen Kumar Lankala

📱 +1-656-212-1113   🏠 **Tampa**, **Florida, USA**   ✉ plankala@usf.edu

A **highly skilled, talented, and knowledgeable** electrical and electronics engineering student with extensive knowledge in the field of **electronics, prototyping, and computer modeling.** Intend to establish a career in a significant data-centric with devoted and committed personnel, which will enable me to completely develop my potential and satisfy my desire for cutting-edge technological inventions.

Core Competencies

Python Programming

Basics of C++, R Programming, Power BI

Machine Learning And Artificial Intelligence

Business Management, Tableau, SQL

DCA, PGDCA, NO SQL

Projects

- **Face Recognition**
  Identification of a real or fake face
  Process:
  Collecting data on faces from social media
  Recollecting new data of faces with updated photographs
  Image cleansing
  Image annotation
  Development of Image classification NEURAL NETWORKS by using Inception V3
  Accuracy detection model using Deep face

- **SERVER RESOURCE ALLOCATIONS**
  Allocation of the correct server configuration based on usage
  We collected the Data set of AWS services because each department or Individual their assigned to its own servers. Then we classify the server usage whether it was under usage, over usage, or proper utilization.
  Process:
  Data collection
  Data preprocessing using Pandas, NumPy
  Data visualization by using Tableau, Matplotlib
  Data modeling using sci-kit-learn
  Model deployment

Profile Summary

- **Dynamic and dedicated Professional** with good **leadership skills.**

- Excellence in maintaining relationships with good **communication skills.**

- Able to add value to the efforts of the organization by **good teamwork.**

- Proficient in **multiple tools** including Excel, Python, and Basic C++.

- Versatile professional with excellent **analytical, communication, interpersonal & and coordination** skills; excellence in executing relevant research with a focus on scope management, capacity planning, activity sequencing, resource deployment, risk analysis, quality management, and performance management.

Work Experience

Master Marine Services Pvt Ltd
Branch Manager
Surveying Business establishments comprising of 48 offices in all major Indian cities, ports, and ICDs.
Roles and Responsibilities:
- Managing the consulting and consultant team, aiding the manager with project oversight and coordination, and creating, revising, and tracking business and action plans.

- As a branch manager, I would manage customer requirements, delivery process, costing calculation for cargo containers, maintaining the quality of shipping requirements, forecasting the clients' demands, and managing future needs.

- **HEALTH CARE ANALYTICS (CANCER PATIENTS)**

  CREATING A WEB APPLICATION FOR HOSPITAL ADMINISTRATION BASED ON DIFFERENT CANCER PATIENT'S DATA.

  The objective was to maximize the correct classification, constraints could be securing customer confidential information
  Collection of data
  Data set generation
  EDA
  Preprocessing for common Model building
  Deployment of data

Awards & Recognition

Best Manager Award
August 2019

Academic Background

Bachelor of Technology in Electronics and Electrical Engineering
JJ Institute of Engineering and Technology in Hyderabad

Completed the Bachelor's program with quite a lot of programming and management skills.
- Develop different projects
- Worked on learning about the automobile sector

Technical Skills

I have accomplished quite a lot of technical and management skills.
- Microsoft Office
- Language: Basics C++ & Python Programming
- Machine Learning
- Artificial Intelligence

Personal Details

- Name: Praveen Kumar Lankala
- Father's Name: L Srishailam
- Address: Tampa, Florida, United States
- Phone Number: +1656-212-1113
- Email: plankala@usf.edu

Declaration

I consider myself familiar with Electrical and Electronics Engineering aspects. I am also confident in working as a team. I always look forward to learning something new every day. I hereby declare that the above information is true to the best of my knowledge.
